

Good Design vs Bad Design

Amazon Music:

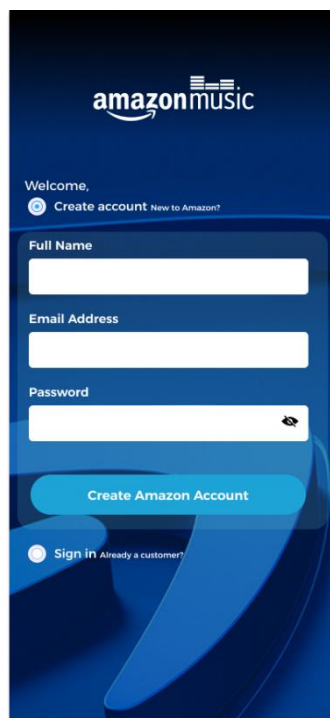

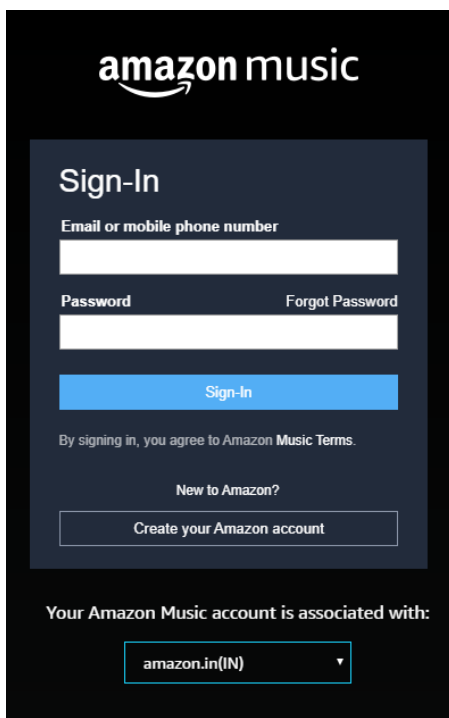

The Comparison

Start

The start page is made lively by giving a shade of blue in the top and bottom part of the page. This is refreshing for users when they open the app and see a tiny bloom.

Login/Signup

The signup/login page has been refreshed with a blue background and the logo. The overlay is now transparent to show a subtle difference from the background. Fonts have been softened for a gentler appearance, and unnecessary text has been removed for a cleaner layout. The radio button is now blue to match the background. The textboxes have a smooth curve for a neater look.
