

User Feedback and Usability

This is a design of a College ERP application with a emphasis on user-friendly layouts and functional components. The design is evaluated for usability by gathering user feedback and making iterative improvements based on their responses.

App design

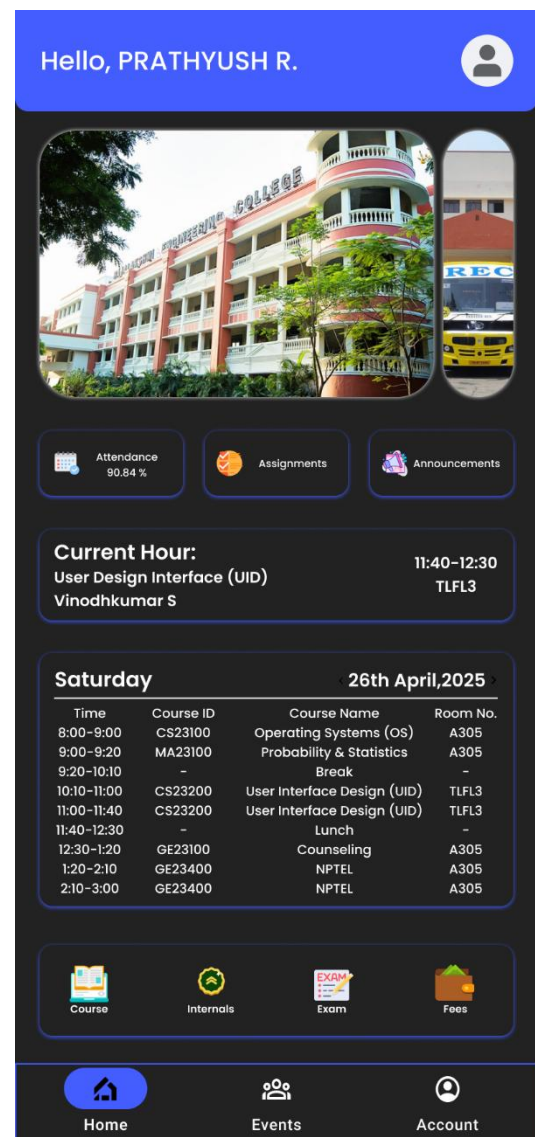

Home Dashboard:

Features:

- ❑ Quick access buttons for Attendance, Assignments, and Announcements.
- ❑ "Current Hour" detail (subject, teacher, timing, room).
- ❑ Time table section.
- ❑ Navigation Bar (Home, Events, Account).

Dominant use of light blue and white.
Calming visual appeal.
Rounded elements with soft shadows.

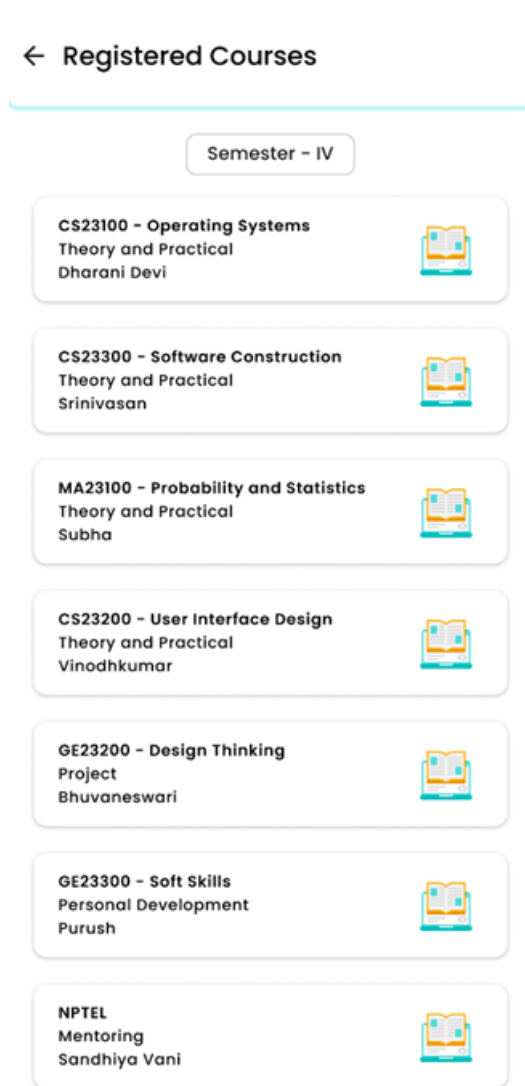

High-contrast violet and grey with
vibrant accent buttons.
Stronger separation between content
sections.

Course Screen:

Features:

- ❑ Displays a list of registered courses for Semester IV.
- ❑ Each course card can be expanded for additional options.

White background with soft pastel borders.
Clean typography with minimalistic icons.
Lots of white space for readability.

Dark theme with muted card tones and white text.
Richer contrast and slightly bolder fonts.
Icons with more colour for better visual differentiation.

Feedback Collection

A Google Form is used to showcase all layout variants and gather user opinions on usability, color appeal, and design preferences. Users respond with detailed feedback.

👉 [Design Feedback Form](#) 👉

User Feedback:

- Excellent structure; easy to find critical information.
- Smart use of visual hierarchy.
- Consistent color theme and rounded elements improve user experience.
- The font style is clean and readable.
- Proper use of white space and padding.
- Icons add a visual touch without clutter.

Areas for Improvement:

- ∞ The timetable is very text-heavy. Using icons beside each entry could improve readability.
- ∞ Could use course-specific icons for better visual distinction.
- ∞ Light blue highlights are nice, but more visual contrast between sections could help differentiate areas.
- ∞ Better Handling of long Names using text wrap.

Overall Evaluation:

Category	Evaluation
Layout	Clean, organized, easy to navigate.
Color Scheme	Pleasant and consistent; uses calm tones.
Usability	High — critical information is accessible.
Aesthetics	Good balance between visuals and text.
Improvements	Minor enhancements for interactivity and richer visuals.
